CAREER OBJECTIVE

Passionate AI Developer and Software Engineer currently pursuing a Master's in Artificial Intelligence at Ahmed Draia University of Adrar. Experienced in building modern desktop, mobile, and full-stack software solutions with Python, Flutter, SQLite, and React. Dedicated to continuous learning and solving practical real-world problems through robust engineering and intelligent systems.

EDUCATION

Master 1 - Artificial Intelligence

2026 - Present (Currently Enrolled)

Ahmed Draia University of Adrar, Algeria

- Advanced coursework: Machine Learning, Heuristic Search, AI Algorithms, Pattern Recognition & Systems.

Licence / Bachelor - Computer Science / Computer Information Systems

2023 - 2025 (Graduated)

Ahmed Draia University of Adrar, Algeria

- Strong foundational grounding in data structures, algorithms, relational database design, and software engineering.

TECHNICAL SKILLS

Programming Languages:

Python, Java, C, C++, JavaScript, TypeScript, Dart

Artificial Intelligence:

Machine Learning, Neural Network Fundamentals, AI Modeling, Data Analysis

Mobile & Web Development:

Flutter, Android Studio, React, Tailwind CSS, HTML5, CSS3, REST APIs

Databases & Storage:

SQLite, MySQL, Supabase (PostgreSQL), Relational Data Modeling

Tools & Environments:

Git, GitHub, Linux, VS Code, Docker, Figma

FEATURED PROJECTS

Vacation Rental Platform (Personal Project)

[\[Flutter, Supabase, Dart\]](#)

Cross-platform mobile accommodation booking application with user authentication, real-time calendars, and availability tracking.

Hospital Stock Management (Academic Project)

[\[Python, SQLite \(French UI\)\]](#)

Desktop software automating clinical medication inventories, min-stock warning thresholds, and batch expiry alerts.

Clinic Management System (Academic Project)

[\[Python, SQLite\]](#)

Healthcare practice system with patient registry, consultation scheduling, and comprehensive diagnosis history database.

Inventory Management System (Personal Project)

[\[Python, SQLite\]](#)

Production-ready stock management system with multi-tier product cataloging, sales auditing, and reporting.
